Plastic!

Can you answer your question?

Does what you found out make sense? Is it what you expected?

Do vou need more information to answer your auestion or problem?

> Are there new problems you need to think about?

1. Screen a film about plastics in our oceans

4. Use less plastic food wrappers

7. Repurpose used plastic bottles

2. Organize a playground plastic litter pickup

5. Use reusable cutlery for school events

8. Ditch the laminator, choose plastic-free displays

3. Encourage reusable bottles instead of single-use plastic

6. Request that supplier deliveries are plastic-free

9. Share our success with other schools!

What was effective about how you tried to find out what's going on? What were the challenges and limitations?

> How can you use what you have learned to create change?
